**Our mission:** The Organic Glow Beauty Lounge is the UAE's first completely green ladies salon, from our organic cruelty-free natural products, to our eco-friendly interiors. We're committed to providing our customers with safe toxic-free treatments, friendly service & utmost relaxation at an affordable price. More than just a salon, The Organic Glow Beauty Lounge strives to increase awareness amongst women about the dangers of using harsh chemicals & promote ethical and holistic beauty by offering a menu of toxic-free services which includes: organic sugaring, natural hair treatments, ammonia-free colour, fruit facials, freshly-blended body scrubs, formaldehyde-free nail treatments and much more. Looking and feeling great has never been kinder to both you and Mother Earth!

- Enjoy complimentary organic herbal teas, coffee or filtered water (we don't use plastic bottled water) at our salon.
- We highly recommend you bring your own slippers for pedicure treatments.
- Bring back your scrub jars and/or product bottles for refills, and receive a 10% discount on your next purchase! (Applicable on some products only).
- Gift vouchers are available for purchase.
- Getting pampered in the comfort of your own home is possible with our Home Service. Minimum spend of AED 600 is required + AED 50 transportation fee will apply.
- Your health and wellness is important to us, so is protecting our earth and maintaining an affinity with nature. Cruelty-free formulations (no animal testing), eco packaging and interiors further affirms our commitment.
- **Cancellation Policy: Your beauty treatment appointment is very important to us and is reserved specifically for you. We understand that sometimes schedule adjustments are necessary, therefore, we kindly ask that you notify us at least 24 hours in advance if you wish to cancel or reschedule your appointment. Late cancellations and 'no show' appointments cost us precious time and money, and are unfair for clients on the waiting list, who can use your booked time-slot. Late Arrivals: We recommend you arrive 10-15 minutes earlier than your scheduled appointment. For late arrivals, we will hold your appointment for a maximum of 15 minutes, after that, we will start on our next client or walk-ins, and you may need to wait for starting your booked treatment. We thank you for your understanding.**

## Toxic-Free Nail Care

Treat your nails with our award winning 10-free non-toxic vegan and breathable nail polish, that does not contain Parabens, Formaldehyde, Dibutyl Phthalates (DBP), Toluene, Camphor, TPHP, Xylene and Resins, making it completely safe, especially for mums-to-be. We don't offer harsh nail services such as acrylic nail treatments (they contain toxic chemicals that damage your nails) nor paraffin wax (which is a by-product of petroleum). Additionally, we use tea tree oil, a natural antiseptic, in all our nail treatments, and disposable pedicure liners, for extra hygiene.

## **Bio Sculpture Gel Nail Treatments**

Bio Sculpture® Gel offers a permanent nail colour that lasts for weeks without wearing or chipping. It is the only gel brand in the world to receive the International 5 Star Farmovs Parexel rating for efficacy and tolerability. Bio Sculpture® Gel does not contain any MMA, parabens, phthalates, toluene or formaldehyde, as a result of this, it is a proud supporter of the National Breast Cancer Foundation.

Bio Sculpture® Gel is a toxic-free, non-yellowing, odorless, chip-resistant nail treatment that strengthens and promotes the growth of natural nails. It is merely applied onto the prepared nail, with no time-consuming build-up process, it is self-leveling which eliminates excessive buffing and is cured under an LED Lamp in a few seconds- so no time is wasted waiting for the product to dry. Bio Sculpture® Gel is removable without damage to natural nails by soaking off in less than 15 minutes! Unlike acrylic applications, which use dehydrating primers and bonding liquids and scratch the surface with harsh buffing, therefore damaging the nail at the outset of application.

Bio Sculpture® Gel's philosophy is to refrain from damaging the natural nail and to have as little buffing and filing of the natural nail as possible. NO ABRASIVE and DAMAGING ELECTRIC DRILLS are used in Bio Sculpture® Gel Treatments.

## Pampering Foot Rituals

Our feet are our connection to the Earth and to ourselves. They support us, alert us to imbalances in the rest of our body, and take us to wherever we ask them to! So treat them to the loving care they deserve with one of these beautiful pampering rituals!

**All the foot rituals below include: a fragrant warm soak, a thorough pedicure, an exfoliating scrub, a relaxing foot & leg massage, a moisturizing mask and nail polish application. Tea Tree and disposable liners are used for additional hygiene.**

**AED 185 (60 minutes)**

### **Strawberry Smoothie**

Your feet are soaked in a warm nut milk bath infused with lavender oil. After a thorough scrub and pedicure, a lovely mask made from fresh strawberries and oatmeal is applied, followed by a relaxing foot and half leg massage and the application of your chosen toxic-free nail polish.

**(Note: Strawberries contain a natural fruit acid which aids in exfoliation. Lavender oil is great for relaxation).**

### **Green Tips**

Your feet are soaked in a refreshing peppermint aromatherapy bath. After a thorough scrub and pedicure, a lovely mask made from fresh avocados and mint is applied, followed by a relaxing foot and half leg massage and the application of your chosen toxic-free nail polish.

**(Note: Peppermint Oil aids in circulation, is anti-inflammatory and an antiseptic. Avocados are great for very dry skin as they contain natural rich moisturizing oils. Not recommended for pregnant women).**

### **Citrus Bliss**

Your feet are soaked in a warm zesty bath containing citrus essential oil and slices of fresh lemon. After a thorough scrub and pedicure, a lovely mask made from fresh lemon zest and maple syrup is applied, followed by a relaxing foot and half leg massage and the application of your chosen toxic-free nail polish.

**(Note: Citrus essential oil reduces stress, prevents insomnia & aids the immune system).**

### **Rose Garden**

Your feet are soaked in a warm and fragrant rose water bath. After a thorough scrub and pedicure, a lovely mask made from dried rose petals and rose essential oil is applied, followed by a relaxing foot and half leg massage and the application of your chosen toxic-free nail polish.

**(Note: Rose water has anti-inflammatory properties. Rose essential oil is a natural antiseptic and astringent, as well as being an aphrodisiac!).**

### **Divine Detox**

Your feet are soaked in a hot baking soda and sea salt bath. This is the most essential step for a proper detox, as hot water draws toxins out of the body to the skin's surface, and while the water cools, it pulls toxins from the skin. Applying polish is optional if you wish to keep your toes polish-free. This is a great natural detox for the whole body through your feet!

**(Note: sea salts are naturally high in minerals beneficial to the skin & body. Baking soda helps wash away perspiration & neutralizes acids on the skin. It's especially great for soothing skin rashes & helps chronic problems like eczema & psoriasis. Some claim that it helps counter the negative effects of radiation (i.e from the sun or from x-rays & radiation treatments).**

**\*We highly recommend you bring your own open-toed slippers to wear after your pedicure. Although we don't encourage using disposable slippers, as they are not eco-friendly, we can provide them for a small charge of AED 5!**

## Organic Sugaring- Hair Removal

Getting rid of unwanted hair has never been a more pleasant experience, with our unique 100% certified organic, aromatherapy, hypo allergenic hair removal blend, which contains only organic sugar, chamomile, lemon juice and rose essence. Unlike regular salon chemical waxes, this special blend removes unwanted hair without damaging the skin underneath, which is great for sensitive skins and sensitive areas. The ingredients offer natural healing, anti-inflammatory and astringent properties.

## Ammonia-Free Hair Colour

Ammonia-Free Herbal hair colours work differently than chemical hair colours, which aggressively remove natural pigments from the interior of the hair shaft, and replace them with synthetic dyes. This way, your initial hair colour can be completely changed. However, since natural hair pigments have a stabilizing effect on overall hair structure, repeated chemical colour treatments can make hair fragile and lifeless. Herbal hair colours penetrate only into the outer, scaly layer of the hair shaft, giving a coating of colour over the outer layer. The natural pigments of your hair shine through this colour layer. Your new hair colour results from the combination of your initial colour together with the applied hair colour layer.

Our herbal colour is:

- Long lasting and permanent
- Gives effective grey coverage
- Made with 8 certified-organic herbal ingredients to strengthen the hair
- Dermatologically-tested for sensitive skins/scalps
- Free from ammonia (which damages hair), resorcinol, parabens, alcohol and gluten
- 100% vegan and cruelty-free. Not tested on animals
- Certified non-GMO

**Root Colour**

**AED 300 – 350\*** *(Depending on root length)*

**Full Colour**

**AED 375 – 950\*** *(Depending on hair length/thickness)*

(\*Price includes a basic blowdry. Additional hair styling/blowdrying will incur an extra cost of AED 60-100 depending on length and thickness of hair).

**Make your hair colour last longer by requesting an add-on of our Bamboo UV Colour Protection Deep Hydration Masque after your colour session.  
Only AED 100!**

## Hair Care

All our hair products are by Alterna BAMBOO haircare range, which are made of natural plant formulas, containing certified organic bamboo extract, which adds strength to the hair and makes it more resilient. All Alterna products contain certified organic ingredients grown responsibly and ethically traded, and are free of parabens, sulfates, sodium chloride, gluten, TEA, and DEA.

## Healthy Hair Treatments

Constant exposure to warm weather, air conditioning, chlorinated water and harsh chemical products, disrupts the natural beauty of your hair, making it prone to breakage, dehydration, tangles, split ends, frizziness, loss of volume, luster and shine. Treating your hair regularly with natural deep conditioning treatments, is the best way to help protect, nourish and improve the condition and health of your hair.

**All the treatments include: a cream or oil-based hair mask, a relaxing head & shoulder massage, steam (or shower cap if doing other treatments), hair wash and a blowdry.**

**AED 300 - AED 400** (60 mins)  
(price depends on length and thickness of hair)

### **Bamboo Anti-Frizz Treatment**

A deep conditioning moisturizing treatment that combines strengthening pure organic bamboo extract with smoothing organic kendo oil. This intensive hydrating treatment nurtures frizzy hair, infusing it with vital nutrients, transforming rough, unruly hair into smooth, sleek strands, while eliminating frizz and split ends and fortifying follicles for stronger, healthier hair.

### **Bamboo UV + Color Protection Deep Conditioning Treatment**

A deep conditioning moisturizing treatment that intensely nourishes severely damaged hair back to health. This mask combines strengthening pure Organic Bamboo Extract with color-locking, damage-locking Kalahari Melon Extract, leaving hair incredibly silky and shielded from UVA/UVB dry-out and other oxidative damage. It provides the highest level of color protection preventing color from washing out and fading. A must treatment for colored hair!

### **Rosemary & Olive Oil Treatment**

This nourishing oil treatment combines the powerful benefits of rosemary essential oil, to stimulate hair growth, slow oil production, prevent hair loss, and increase the volume and lustre to fine hair, and olive oil, to help protect the hair's natural keratin, combat frizz, seal in moisture, and improve manageability and shine. **(Not recommended for pregnant / nursing women).**

### **Avocado Oil Treatment**

Avocado oil is ideal for moisturizing dry, brittle and damaged hair. It contains many nutrients such as vitamins A, B, D, E, protein, amino acids, iron, copper, magnesium, and folic acid. All these nutrients are beneficial for nourishing and strengthening hair. Avocado oil also has natural humectant properties, which locks in moisture and adds shine. It also helps maintain and heal the scalp, when faced with a sunburn, as it acts as a natural SPF and sunscreen.

### **Coconut Oil Treatment**

Coconut oil is rich in fatty acids that nourish and moisturize the scalp and hair. Polynesian cultures historically have and still use extra virgin coconut oil as a beauty product, as it reduces hair breakage, penetrates the hair follicle better, combats frizz, gets rid of dandruff, and promotes hair growth.

## Organic Glow Fresh Facials

Facials should be an integral part of every woman's beauty regime. Not only do they replenish our skin, but they also force us to take time for ourselves to relax! Your body requires fresh fruits for optimum health, so why not apply them on the face? Natural face masks help promote healthy glowing skin, by removing impurities & improving skin texture. We have created different blends of facials, using fresh fruits and natural ingredients that will soothe, restore & rejuvenate your skin. Our facials are 100% vegan, suitable for sensitive skins and will give you a natural glow.

Choose one of our freshly-blended facials & enjoy the experience!

**Request a relaxing Foot Massage with your facial for an additional AED 50 only!**

**AED 350 (60 mins)**

### **Apple**

Apples are good for the skin because of their natural fruit acids (glycolic acid)-a natural exfoliator, which helps remove old skin cells and keeps pores clear. A good recipe for a youthful and fresh look. **(Suitable for all skin types, especially best for oily and acne-prone skin).**

### **Avocado**

Avocados are one of nature's best fruits to make your skin healthy and glowing, as they contain beneficial anti-oxidant properties that protect the skin from harmful radicals and toxins. **(Best for dry / mature / sun exposed skin).**

### **Cucumber**

Cucumber is a rich source of silica- a mineral which holds and strengthens the connective tissues in skin. Cucumber is also a natural astringent, reduces puffiness, tightens pores (will give you an instant face lift!) and helps loosen blackheads. **(Great for oily / fatigued skin and tired puffy eyes).**

### **Dates**

The wonder fruit of Arabia! Dates contain many vitamins and minerals and are rich in natural fibers. The lovely subtle scent of dates makes this facial our top seller and most requested facial! **(Suitable for all skin types).**

### **Oatmeal**

Ok, not exactly a fruit! But oatmeal has cleansing, and moisturizing properties and can act as an anti-inflammatory for sunburned or irritated skin. **(Recommended for all skin types, especially oily and acne-prone skin).**

### **Rose Oil**

Rose has astringent, cleansing, antibacterial and anti-inflammatory properties. The soothing properties of rose works wonders on all skin types. **(Best for dry skin).**

### **Strawberry**

Strawberries contain lots of salicylic acid which gently removes dead dry skin cells, reduces facial redness and swelling, leaving the skin smoother and glowing. **(Suitable for all skin types. Not recommended for sensitive or sunburned skin).**

## Organic Anti-Aging Facials

As we age, have more exposure to the elements, and get lines from all the facial expressions we make, our skin gets thinner, dryer and loses collagen and elastin. So the time it takes for healthy cells to regenerate, slows down, which makes skin look dull and lifeless. An anti-aging facial will have all the steps of a basic facial, but with ingredients that are targeted to aging or "mature" skin. In addition, these facials include the application of Human+Kind Anti-Aging Cream, made with jojoba seed oil, marshmallow extract, rosehip oil, shea butter and acmella olercea (known as 'nature's Botox'). All these ingredients and the ones used for the face mask, help to reduce wrinkle depth, smoothen skin and makes it look more rejuvenated. A relaxing foot massage is also included. These facials are suitable for all skin types and all ages.

AED 450 (60 mins)

### **Raw Cacao**

**This freshly-blended anti-aging facial uses five key ingredients which are packed full of antioxidants and beautifying properties.**

**Raw Cacao**- Contains the highest amount of age destroying antioxidants on the planet!

**Avocado**- Rich in omega-3 fatty acids, are anti-inflammatory and are a potent moisturizer.

**Green Tea**- A powerful antioxidant, which helps prevent free radical damage, which is the leading cause of aging.

**Maple Syrup**- Beneficial to the skin because of its healing and humectant properties.

**Oatmeal**- It is the primary "active" ingredient in this facial because it will work to absorb excess oil on the skin and will naturally exfoliate the skin to remove dead skin cells.

### **Aloe Vera & Maple Syrup**

**Pure maple syrup and natural aloe vera gel are 2 powerful ingredients that have excellent wrinkle fighting properties and are natural moisturizers that work to smoothen and soften the skin, giving your face a natural face lift and glow.**

Aloe vera gel has been used as a healing salve since the ancient Egyptians called it the "plant of immortality" thousands of years ago. Aloe vera contains over 75 different nutrients including amino acids and salicylic acid, antioxidants and humectant properties. So when combined with another powerful humectant, such as maple syrup, it penetrates the dry skin cells more deeply and works to keep skin moist. Aloe vera gel is especially beneficial for fighting wrinkles, as it contains polysaccharides like acemannon and other components that stimulate skin regeneration and the formation of new tissue. Aloe also has anti-inflammatory properties, which helps calm skin inflammations.

Pure maple syrup has the same beneficial properties of antioxidant compounds found in berries, tomatoes, tea, and flax seed – all super foods! It contains 54 antioxidants that can help delay skin aging and skin wrinkling caused by free radicals. Maple syrup also works as a great humectant for the skin, as it contains hygroscopic substances that help to keep skin moist.

## **Massage**

Over time, the body builds up unhealthy amounts of stress hormones in response to daily stresses such as work deadlines, traffic jams, running a busy household, and not dedicating enough 'me-time'! These hormones can cause physical problems, like digestive issues, headaches and sleeplessness. A relaxation massage decreases the amount of stress hormones in the body, leaving clients feeling completely relaxed and rested. Having a massage helps trigger changes in the brain's chemistry, resulting in reduced stress and an improved mood. Our relaxing massages use organic aromatherapy oils containing 100% pure essential oils. The combination of our organic oils and caring hands will ensure your body receives the full relaxation it deserves.

Full Body Aromatherapy Relaxation Massage	AED 300 (60 mins)
Back	AED 175 (30 mins)
Head & Shoulder	AED 125 (20 mins)
Face Massage	AED 85 (20 mins)
Foot	AED 75 (20 mins)
Hand	AED 50 (20 mins)

### **Anti-Cellulite Massage**

AED 350 (45 mins & with 2 therapists)

Cellulite is a condition in which the skin appears to have areas with underlying fat deposits, giving it a dimpled, lumpy appearance. It is most noticeable on the buttocks and thighs.

This intense special massage tackles the cellulite-prone areas of the hips, thighs and buttocks, by applying an exfoliating body scrub prior to the massage to warm and smoothen the areas which will be worked on, and then having a deep and vigorous massage applied by 2 therapists at the same time. This massage, if done on a regular basis, together with exercise and a healthy eating plan, will help reduce the appearance of cellulite, smoothen the skin, increase circulation and remove toxins from your body.

## 'Green Glow' Organic Body Scrubs

Our body needs constant pampering, and body scrubs offer the perfect beauty tool that helps make the body smooth and glowing. We generally tend to take a lot of care when it comes to the face, but we often neglect the body, which also requires equal attention. To get rid of excessive dry skin and achieve healthy smooth skin, a body scrub should be incorporated in our beauty routine. Get your body polished with our freshly blended scrubs using organic ingredients and essential oils. Perfect for sloughing off dead skin and encouraging circulation. A great treatment prior to our organic sugaring, tanning or a special night out!

### **Benefits of using Body Scrubs:**

- Using a body scrub helps to remove the toxins that block the pores of the skin.
- Freshly blended scrubs are extremely beneficial as compared to products sold over the counter due to the absence of harsh or toxic chemicals.
- Body scrubs even help to facilitate the blood circulation. This causes a natural glow.
- Scrubs are beneficial for all types of skin.

Our 'Green Glow' body scrubs are blended at our premises, using the natural base ingredients and high quality essential oils. Ask us to blend your choice of organic scrubs: AED 120 (Large); AED 90 (medium); AED 60 (small).

**AED 300** (60 mins)

### **Green Glow Sea Salt**

The salt scrub is the most common of all scrubs. It stimulates the skin, muscles and nerves, cleanses the pores and improves the texture of dull, bumpy and tired skin.

### **Coffee Bean**

Made from freshly ground coffee beans, this scrub is great for circulation and cellulite! Guaranteed to leave you smelling of a freshly brewed espresso!

### **Oatmeal & Lavender**

If you have very sensitive skin, then try this gentle exfoliating oatmeal scrub infused with organic lavender pure essential oil. Leaves skin subtly scented and looking radiant.

### **Coconut & Rose**

This amazing coconut and rose-infused sugar scrub is packed with antioxidants, produces silky smooth skin by boosting collagen, and has the power to improve skin disorders including psoriasis, dermatitis, and eczema.

### **Express Scrub**

**AED 200** (30 mins)

Our regular 'Green Glow' scrub treatment, but in much less time. Great for anyone in a rush!
